PROFESSIONAL SUMMARY

Software Engineer with CGPA 3.87 and 2+ years of hands-on experience in full-stack development, data analytics, and machine learning. Skilled in React.js, Node.js, Python, and Power BI. Delivered multiple end-to-end projects across web, AI, and BI domains. Available for remote roles globally and on-site positions in Pakistan.

TECHNICAL SKILLS

Languages & Frameworks

Java, Python, JavaScript, SQL, React.js, Node.js

Databases & Tools

MongoDB, PostgreSQL, Git/GitHub, Figma, VS Code

Data & AI

Power BI, Excel, Scikit-learn, TensorFlow, CNN/Deep Learning

EXPERIENCE

Frontend Developer — Yellow Sols

2025 · 3 Months

Software House, Sargodha

- Built responsive, user-friendly web interfaces using React.js, HTML5 & CSS3 for client projects; converted UI/UX designs into pixel-perfect, cross-browser-compatible components.
- Collaborated with the development team to deliver client-facing web applications within project deadlines.

Data Science & Analytics Intern — DevelopersHub Corporation

- Delivered five real-world data science projects — classification, clustering, time-series forecasting, cost-optimized risk modeling, and an interactive Streamlit BI dashboard — with SHAP-based model explainability.

KEY PROJECTS

Lost & Found Platform

[React.js](#) · [Node.js](#) · [MongoDB](#)

Full-stack web app for reporting/searching lost items — interactive UI, user messaging system, database-backed.

CleanAI — Intelligent Data Cleaning App

[Python](#) · [Streamlit](#) · [Pandas](#)

Professional-grade Streamlit app automating data cleaning — missing values, outliers, deduplication — with one-click PDF quality reports.

Business Analytics Dashboard

[Power BI](#) · [Excel](#)

Interactive BI dashboard visualizing KPIs, sales trends, and performance metrics with automated reporting.

House Price Prediction

[Python](#) · [Scikit-learn](#) · [Regression](#)

Supervised ML model using regression & feature engineering to predict house prices with strong accuracy.
