

USAMA ZULFIQAR

SOFTWARE ENGINEER | FRONTEND DEVELOPER | DATA ANALYST

- 03187499173
- Sargodha, Pakistan
- portfolio-demo.vercel.app

- usamazulfiqar173@gmail.com
- github.com/UsamaZulfiqar-7

TECHNICAL SKILLS

Languages

- Java
- Python
- JavaScript
- SQL

Frontend

- HTML5
- CSS3
- React.js

Backend / DB

- Node.js
- PostgreSQL
- MongoDB

Data & BI

- Excel
- Power BI

Tools

- Git/GitHub
- VS Code
- Figma

SOFT SKILLS

- Problem Solving
- Communication
- Teamwork
- Time Management
- Adaptability

LANGUAGES

- Urdu Native
- English Proficient

EDUCATION

BSCS

University of Lahore
Final Semester

Intermediate

ABICS Sargodha
Pre-Engineering

Matriculation

ABICS Sargodha

PROFESSIONAL SUMMARY

Passionate Software Engineer with strong expertise in **Frontend Development**, Data Analysis, and Machine Learning. Experienced in building responsive web applications, analytical dashboards, and AI-based solutions. Skilled in modern technologies with **2+ years of coding experience** and multiple successful projects.

EXPERIENCE

- 2+ years of hands-on coding and full-stack software development experience.
- Built and deployed multiple frontend, ML, and data analysis projects end-to-end.
- Strong understanding of responsive UI/UX design and modern web technologies.
- Proficient in Git & GitHub for version control, branching, and project management.

PROJECTS

Lost & Found Platform

React.js Node.js MongoDB

Designed and developed a full-featured web platform for reporting and searching lost/found items, featuring an interactive UI, user communication system, and MongoDB-backed database.

Data Analysis Dashboard

Excel Power BI

Built an interactive BI dashboard to visualise business KPIs, trends, and performance metrics through dynamic charts and automated reports.

Fake Currency Detection

Python Deep Learning GUI

Developed a CNN-based system to classify real vs. fake currency notes using image processing, wrapped in a polished graphical user interface.

House Price Prediction

Python Scikit-learn Regression

Built a supervised ML model using regression algorithms and feature engineering to predict house prices with high accuracy.
